

RETREAT DAY God, Consciousness and Christianity

Guided by
Revd. Don MacGregor

**Exploring Contemporary Faith,
Science and Experience:**

What insights does recent science have
about consciousness?

How does this enhance our understanding
of God?

**At THE WIGWAM RETREAT CENTRE,
Riddlesworth, Norfolk IP22 2SZ**

Thursday 5 February 2015 10am–4pm

Cost £28 (Concessions available to those on a low income.)

Includes teas, coffees, light lunch.

A retreat day to explore a fresh understanding of the Christian message that is relevant for the 21st century, springing from both personal experience and recent scientific theories. The day will include inner stillness, sharings, and time for exploring your own questions.

Revd Don MacGregor is the author of *Blue Sky God – the Evolution of Science and Christianity*. He is currently an Anglican priest in West Wales. An ex-science teacher, Don will outline how some scientific theories have led him to a view of God as the divine matrix of compassionate consciousness holding everything in being, and Jesus as a Wisdom teacher of the path of transformative love, and as a fulfilment of humanity's potential for becoming divine.
